INTRODUCTION

The publishers present the 1926 edition of the Oakland, Berkeley and Alameda Directory to its patrons and users with confidence as to the complete and correct information contained therein.

The general arrangement is the same as in the past; the letter "A" following a name signifies Alameda; "B," Berkeley, and "Pied," Piedmont. The Classified Section is arranged in the same manner.

The "BUYERS' GUIDE" occupies pages 109 to 226. This section includes advertisements of the leading manufacturers, business and professional men of the East Bay District, arranged by departments and indexed classified headings. A careful perusal of this section of the directory will be found interesting.

The Miscellaneous Section, giving information as to Churches, Fraternal and Secret Societies, Lodges, Civic and Miscellaneous Organizations, Parks, Etc., will be found on pages 41 to 56.

The Street and Avenue Guide commences at page 57.

The Classified Section in the back of the book is complete and lists every business and profession under correct headings.

Names coming in too late to appear in the regular Alphabetical Section will be found on page 56.

Population

The cities of Oakland, Berkeley, Alameda, Piedmont, Emeryville and Albany have now grown together into one compact whole. The population estimated by the publishers of the 1926 Directory is 474,220. The number of names contained in this volume is 189,684. Owing to the fact that the names of married women and minor children living at home have been eliminated the publishers use the multiplier $2\frac{1}{2}$, which gives the estimated population of **474,220**.

Directory Library

A library of City and County Directories is maintained by the publishers at 470 13th street for the free use of the ripatrons. As the latest Directories are issued they will be added to the Library, thereby keeping it up to date from year to year. We extend a cordial invitation to each and every one of our subscribers to make frequent use of this Library and to consult the directories on file here as often as wish.

Advertising Oakland

The Oakland, Berkeley and Alameda Directory is placed in the Directory Libraries throughout the United States and in many of the larger hotels in New York, Chicago and other large cities, where it serves the public as a valuable book of reference and the city it represents as a splendid standing advertisement, for no other publication can convey such an idea of the city, its business interests and all the various institutions and organizations.

We are indebted to the Oakland Chamber of Commerce, the Berkeley Chamber of Commerce, and the Alameda Chamber of Commerce for the following interesting data, commencing at page 11.

Know and Show Your City

Thousands of visitors come to Oakland each year. Many of them are convention delegates; others visit friends and relatives, and still others come as total strangers.

Most of them know nothing of the community although they are anxious to learn as much as they can concerning it.

It is the duty of every resident to equip himself so that he may intelligently inform the newcomer should he be called upon to do so.

Facts that you may consider unimportant and commonplace will doubtless be of interest to the visitor.

There is much to see and much to know about Oakland.

The printed literature of the Chamber of Commerce aims to give such information and is gladly furnished upon request.

OAKLAND

Oakland, situated on the continental side of San Francisco Bay, is the third largest city in California, the fifth largest on the Pacific Coast, and the fastest growing industrial city in the West.

Though it has grown with tremendous rapidity, both from the standpoint of population and the standpoint of industry, Oakland is a city of homes. Stretching away from the bay there is ample room for a city of several million population before reaching the sloping hills which have become the exclusive residential section of each of the several cities along the eastern shore of the bay.

It is only in comparatively recent years that industries, recognizing the advantages offered by Oakland, began to claim the excellent factory sites along the bay shore. Today there are more than 500 plants, making a total of more than 2000 different products in this great east bay city.

THE HARBOR

Oakland has 27 miles of deep water frontage on the greatest land-locked harbor in the world. Improved freight docking facilities have been installed by municipal and private interests, and repair facilities, superior to any on the Pacific Coast, are available here for the fleets of the world. Oakland lays claim to the largest floating dry docks in the world and the largest marine railroad. It has numerous other dry docks and marine railroads of lesser size.

A majority of the leading steamship lines, carrying either coastwise or trans-Pacific freight, have made Oakland a regular port of call, and the volume handled on Oakland docks is growing with great rapidity.

United States Government engineers recently recommended the expenditure of more than a million and one-half dollars on the Oakland harbor.

INDUSTRIES

The recently issued government census shows that Oakland gained 175.3 per cent in the number of persons engaged in manufacturing in the five years immediately preceding the compilation of these figures. In the same period of time Los Angeles gained 87.9 per cent and San Francisco 45.7 per cent.

In the matter of capital invested, Oakland gained 226.9 per cent, San Francisco gained 124.1 per cent and Los Angeles 56.5 per cent.

Salaries and wages increased 378.6 per cent in Oakland, against 176.5 per cent in Los Angeles and 122.2 per cent in San Francisco; and the value of products manufactured gained 326.5 per cent in Oakland, 170 per cent in Los Angeles, and 157.1 per cent in San Francisco in this five-year period.

W. C. Durant, when head of the General Motors, said that the efficiency of labor in his Oakland plant was greater than in any other plant of the extensive General Motors chain of factories throughout the United States. The fact that the new Durant factory was located in Oakland in the face of the greatest kind of competition from Seattle, Portland and Los Angeles, confirms the impression that the Durants were eminently well satisfied that Oakland offers the best manufacturing conditions on the Pacific Coast. The manager of one of the largest fruit packing plants in the United States recently said that, in his judgment, an Oakland fruit packing plant's advantages in efficiency of labor over a similar plant in the Sacramento or San Joaquin valleys amount to 20 per cent.

CLIMATE

Oakland's climate is extremely equable. The average temperature for the twelve months is 56 degrees. The days are never too hot for comfort and the nights are always cool. Seldom, even in the so-called winter months, does the mercury drop to 32 degrees F. It is due to this ideal working climate that Oakland shipyards—and incidentally Oakland is one of the largest shipbuilding centers in the world—were the ones to set one building record after another during the World War.

HEALTH CONDITIONS

In point of health Oakland has consistently ranked among the first cities of the nation for a long period of years, and statistics show that it has become an increasingly more healthful place for residents during the last fifteen years.

In 1920 Oakland ranked second in smallness of death rate out of a list of forty-three larger cities compiled by the United States Government. The rate which was then 11.6 per thousand was exceeded only by Seattle, where the death rate was 10.5.

It is noteworthy that Oakland, as indicated by the death rate, exceeds in health conditions both Los Angeles and San Francisco; in one case 3.4 per thousand and in the other by 3 per thousand.

POPULATION

The population of Oakland in 1910 was 150,174, in 1920, 216,261, a gain of approximately 44 per cent in a ten-year period. At the present rate of growth it will register a materially larger percentage of increase during the ten years between 1920 and 1930.

The cities of Berkeley and Alameda and the municipalities of Emeryville, Piedmont, San Leandro and Albany have now grown together into one compact whole. It is these seven cities which are referred to as the East Bay community.

SCHOOLS

Few cities in the United States can boast of a more perfect school system than Oakland, or more attractive school buildings. Noted educators from every section of the world have praised Oakland's educational facilities. The present school enrollment is in excess of 45,000. In Berkeley, which adjoins Oakland on the north, is the great University of California, the largest in the United States in point of enrollment and incidentally one of the richest in the matter of endowment.

Oakland has 44 primary and grammar schools, 13 junior high schools, and six high schools.

PARKS AND PLAYGROUNDS

Oakland's new park and playground development—a noteworthy feature of which was the acquisition this year of extensive municipal golf links—undoubtedly will be conducive to a still higher level of health and well-being among residents of this favored city. Among the Oakland parks which have attracted the attention of tourists from all parts of the world is beautiful Lake Merritt and Lakeside Park. Lake Merritt, situated in the center of the city, comprises 160 acres, and is surrounded by wonderful lawns and beyond these by beautiful modern homes and apartments. On one side of the lake is situated Oakland's new million-dollar auditorium.

The waters of Lake Merritt are dotted the year round with canoes and launches and during the so-called winter months many thousand of wild ducks make Lake Merritt their home. Spring finds these traditionally wild birds almost as tame as barnyard fowls. They walk on the lawns and among the sightseers, apparently recognizing that their safety is assured.

The annual visit of these ducks that have adopted this spot in sunny California as their home has been made the occasion for pageants on the part of the people, and each January the now nationally known Wild Duck Pageant is held on the lake shore.

Possessed as it is of all those things considered essential for a great metropolis, with three transcontinental railways, its position on one of the world's greatest land-locked harbors and with ample room in which to make a tremendous expansion, Oakland's future is assured.

BERKELEY

Reaching along the base of the gracefully rolling Berkeley hills, the city looks westward over the glorious pageant of San Francisco Bay to the Golden Gate, the mystic portal through which the commerce of America and all the lands of the Pacific ocean are interchanged. To the south of the Golden Gate it looks upon San Francisco built on its many hills. To the north it faces the Marin County hills rising into the gracefully chiseled profile of Mount Tamalpais. Close at hand lies a long stretch of plain sweeping from the bay shore and crowded with dwellings and the buildings of trade and industry. The whole panorama as revealed from the height of Berkeley is one of beauty and splendor.

Southward extends the fair city of Oakland, its ships lying beside the docks, its factories crowding the waterfront and the graceful towers of its tall office buildings marking the business center, with Lake Merritt glistening like a jewel in its setting of park.

During the past thirty years Berkeley has emerged out of the obscurity of a little college town of four or five thousand people to the present city. In those pastoral days the country roads were dusty in summer and deep pools of mud made walking difficult in winter. Two board planks served as sidewalks and broad fields of grain and orchards of cherries and other fruit invited the wayfarer to loiter. The townsfolk carried their lanterns when they walked abroad at night. A few of the wealthy residents had horses and buggies, and a horse car went out from Oakland to Temescal, where a wheezy little steam dummy connected with the University grounds.

The Berkeley postoffice has recently made an accurate count of the population and found that there are at present 78,658 inhabitants, including some 5000 students of the University from outside homes. Of this number 6683 are commuters having their business in San Francisco. The metropolitan area of San Francisco and the East Bay cities includes in a compact district on the shores of the central Bay area a population of about 1,125,000 inhabitants, distributed between the cities of San Francisco, Oakland, Berkeley, Alameda, Richmond, Sausalito and the smaller intervening cities.

From the standpoint of climate, site, living conditions and educational opportunities, Berkeley is today a magnet attracting those who appreciate the better things of life. The great problem today is to keep up with the growth in population by making proper provision of schools, playgrounds, parks and other necessities of a rapid-growing community.

The University of California is located in the very heart of Berkeley on six hundred acres of beautiful hill slope and plain, with Strawberry Canyon in its midst, cutting back into the Berkeley hills. In the classic white granite buildings with red tile roofs, clustered around the graceful campanile, some 15,000 students pursue their studies in the regular session, the intersession and the summer session of the University. Included in the scope of its activities are one of the foremost colleges of mines in the country and a college of agriculture that is reaching out over the entire State in creating untold values to the land by its investigations of means for destroying pests of fruit and farm products, by teaching how to irrigate and to prune, by soil analysis and by removing the element of chance from husbandry and developing it into a science. Its college of architecture is training young men and women in the art of creating buildings nobly conceived in the light of artistic traditions of the past and the engineering skill of the present. Its college of medicine is endowing the men and women who are to be the guardians of life and health of the people of tomorrow with new standards of proficiency. So in law, economics, commerce, the natural sciences, pedagogy, the classics, history, art and letters, the University of California, under the presidency of the eminent astronomer William Wallace Campbell, is training the leaders of thought and action to take their places in the great democracy which is destined to shape the course of world history.

In addition to the thousands of native sons and daughters of the Golden West, the University of California is educating students from many States and from many nations. The Cosmopolitan Club of the University Y. M. C. A. has in its membership several hundred students from other lands, chiefly of countries bordering the Pacific and including representative leaders from China, Japan, the Philippines, Siam, India, Siberia, Mexico, Central and South America. These young men and women are absorbing the training, customs and standards of American life and carrying them home to help in the great task of creating and interpreting world brotherhood in the nations of the earth. •

The athletes of the University of California year after year carry off the honors in contests with all American universities, thus proving that California with its equable coast climate, its out-of-door life and its abundance of fruit and vegetable food, together with exceptional sanitation and public health work, is producing a superior physical type of man. The fact that Helen Wills is a resident of Berkeley, a student of the University and that she received her training in tennis here, while Helen Jacobs and many other tennis champions are products of the Berkeley courts, is evidence of the athletic superiority of Berkeley girls.

Residents of Berkeley have a singularly favorable chance of rearing all their children to maturity. The infant mortality rate over a period of years has been one of the lowest in the country and the general mortality rate has also been very favorable. The death rate per thousand inhabitants for 1925 was 2.47, which is an exceptionally good showing.

The thorough supervision of the milk supply by the Health Department, the unceasing care of the water supply by the East Bay Water Company, and the work of the Welfare Organization with its trained staff of visiting nurses, are important factors in this health record. By far the largest number of deaths in Berkeley occur in the age period between 60 and 80 years, from heart diseases, cancer and apoplexy.

Another field in which Berkeley is doing pioneer work is in the Police Department. The basis of Chief August Vollmer's work is the education of children who have established bad or unsocial habits. In this work he is now ably seconded by a highly trained policewoman. Many of the police officers are college graduates or students, chosen for a combination of physical and mental proficiency. They are gaining a training which makes many other communities look to Berkeley for police chiefs. The lie detector, the highly developed fingerprint department and the expert work in criminal identification have made the Berkeley police system internationally famous.

All charity, welfare and social agencies receive public contributions under the Community Chest plan which has now served twenty-one agencies for the past three years.

Berkeley has operated for the past three years under the City Manager form of government, which has been conducted in a thoroughly business-like way and has gained very general approval from the community. John N. Edy has served as City Manager since the revised charter was adopted and Frank D. Stringham has been the Mayor. Both have gained the confidence and respect of the citizens by the manner in which the government has been conducted.

Under the able leadership of Superintendent Harry B. Wilson, Berkeley has an exceptionally efficient and successful school department. It has the only complete Junior High School system in the United States. Children are taught under the new system of group projects, which is as inspiring and fascinating to the children as it is effective in training. Under this system the children are being encouraged in initiative and trained to make their own textbooks and create scenes and plays expressive of what they are learning.

On the waterfront Berkeley has over a hundred factories which produce over \$50,000,000 of diversified products annually. Coconut oil, soap, automobile, marine and airplane engines, ink, and various types of metal, wood and food products, are among the larger industries, but the articles manufactured cover

a wide field. Owing to superior climatic and living conditions many manufacturers are today seeking locations in this favored city, where the workers live in comfortable individual homes and where out-of-door life is agreeable all the year round. The Chamber of Commerce, which has made a careful annual survey of Berkeley industries, has worked for selected, high-grade types of factory, and has pointed out the value in reducing turnover, of having factories of good architecture and surrounded by gardens of flowers.

The hills are attracting many of the leaders of business in the bay cities who commute from their charming homes set in gardens of perennial bloom. A ferry and electric train service unexcelled in the country carries them back and forth. Many retired army and navy officers, after seeing the world, have chosen Berkeley for a permanent home.

The presidents of some of the leading banks of San Francisco, business and professional men in varied fields and officials in high positions in the government and other public services, make their homes in Berkeley.

This city is winning a national reputation as an art center, and painters, writers, sculptors, architects, composers and performers of music, as well as landscape architects and workers in the various handicrafts, make their homes and have their studios in Berkeley.

The Chamber of Commerce has cooperated with the City Government in many ways, and among others, in endeavoring to assist in city planning and the acquisition of more parks and playgrounds. Stephen Child, the distinguished city planner, has recently become the city planning consultant of Berkeley, and will advise the City Planning Commission on matters concerning the city plan. When completed and carried out Berkeley should become one of the most beautiful of American cities. It is calling to men and women of distinction in science and art to come to the college city, destined to become more and more the center of learning and art of the Pacific, to help to plan and to build here a city worthy of this peerless site.

The Indo-European stock from which builders of western civilization have grown took its origin in the shadow of the Himalayas. In Indian Ocean was its first theater of action. Thence it traveled westward through the Red Sea into the Mediterranean and builded there the civilizations of Greece and Rome. Through the Pillars of Hercules it swept, on into the Atlantic, and Spain, France, Italy, the Netherlands and Britain grew into maturity and strength. Then still westward it moved into the New World, conquering the American wilderness and building the first great democracy that spelled the doom of kings. On it pressed, westward, ever westward, over prairie and plateau, over desert and mountain, until Fremont stood upon the Contra Costa hills and named the Golden Gate.

Today Berkeley, christened by the founders of the University of California after the idealistic Bishop of Cloyne, stands upon the westernmost rim of western civilization, looking through the Golden Gate, out over the vast waste of the Pacific. Beyond the sea is the ancient East, that land of hoar antiquity teeming with its millions. California is the farthest west where the New World must pile upon the last margin of the Indo-European migration. Berkeley, the intellectual center of California, standing upon its hill slopes with the vision of the setting sun in its mystic portal, must look steadfastly through this gateway, and must ponder long on the problem which it conjures to the imagination. The Pacific, now linked by the Panama Canal with the Atlantic, is the center of the civilization of tomorrow. Here where West meets East in trade and the interchange of ideas, is the theater of the mighty deeds of the world to be. Berkeley, the Pacific capital of learning, must fit itself to be worthy of the leadership which fate has thrust upon it. It must rear a city of supreme beauty wherein men will think great thoughts and exercise that leadership which flows from knowledge and high ideals. Come to us, all you who see the vision, and help us to worthily fulfill our destiny. Berkeley, looking through the Golden Gate, is calling you!

ALAMEDA

Alameda, the Dahlia City—the city of beautiful homes, of an unexcelled climate. This is the appellation which is frequently given to Alameda which is within forty minutes' ride by fast electric train and ferry boat from San Francisco.

Alameda is one of the most beautiful of the San Francisco Bay cities. It is situated on an island three miles long and one-half mile wide, with San Francisco Bay gently lapping the southern and western shores while San Leandro Bay borders the east side, and the tidal canal, separating Oakland and Alameda, bounds the city on the north side.

The City Hall of Oakland is but $3\frac{1}{2}$ miles from the central business district of Alameda and may be reached by three different street car lines.

Because of the excellence of the climate and the splendid school system in the city, hundreds of San Francisco and Oakland business men make Alameda their home, and some of the most beautiful small estates in northern California are here.

Taxes in Alameda are low. This is due to the fact that Alameda owns and operates a municipal electric light plant which gives electricity to consumers at a much lower rate than other neighboring cities pay, the plant profits annually approximate \$75,000.

Alameda's school system has reached that pinnacle of efficiency where it is one of the most talked-of systems in the entire United States. There are four elementary, three primary schools and a high school.

Five of the most beautiful public parks in northern California are located within the boundaries of the city. They are the Mecca each year for more than one million people who come from miles away to take advantage of the cooling breezes while their children frolic among the trees and foliage or on the sandy beaches or enjoy themselves on the most modern play equipment found anywhere. Attesting to the popularity of the pleasure resorts located on San Francisco Bay in Alameda, a careful check shows that between 75,000 and 100,000 people each Sunday during the summer months, visit these resorts to enjoy the surf bathing and other pleasures provided for their entertainment.

Alameda has more than 160 miles of excellent paving, and the streets and parks are under the supervision of experts who yearly plant, prune and care for the thousands of beautiful trees which border each boulevard.

Flowers grow in profusion in the city, the dahlia being the most prolific, and some of the prize winners in the large dahlia shows are grown in Alameda. Scores of other blooms are also to be seen, while many houses are partially hid from view by gorgeous flowering vines such as the wistaria, climbing roses others.

Besides the advantages of home life which the city offers, it has an unexcelled industrial district located along the shores of the tidal canal where shipping facilities are the best. This district is also served by a municipal belt railroad connecting with all transcontinental railroad lines.

Such industries as the Alaska Packers' Association, the largest fishing corporation in the world; the Bethlehem Shipbuilding Corporation; Pacific Coast Borax Co.; The Listo Pencil Corporation; Saylor's Chocolates; lumber, coal, bridge and oil companies are located in the industrial district.

A newspaper, the Alameda Times-Star, carrying the full United Press telegraph report of world news and covering every section of the city in local happenings, is issued each afternoon.

And there is room for other large industries along the tidal canal. Alameda is under the city manager form of government and all branches of the city administration come directly under this official's supervision.

OAKLAND CITY HALL

CITY COUNCIL OF OAKLAND

Upper Left—WM. J. MOOREHEAD, Commissioner of Revenue and Finance

Upper Right—FRANK COLBOURN, Commissioner of Public Health and Safety

Lower Left—WM. J. BACCUS, Commissioner of Streets

Lower Right—LEROY R. GOODRICH, Commissioner of Public Works and The Port

Center—JOHN L. DAVIE, Mayor of Oakland

Annual Message of
MAYOR JOHN L. DAVIE
 To the City Council of Oakland

HONORABLE CITY COUNCIL,
 City Hall, Oakland, California.

GENTLEMEN:

In accordance with the custom of previous years and as required by the City Charter, I present herewith my annual message and report on the City of Oakland for the past fiscal year.

Since the time of my last annual message, Oakland has continued its onward march of progress. Recent statistics show that at the end of June, the present year of 1926, we will have established new records in Oakland's history. Government figures show that for the past fiscal year Oakland Postoffice receipts totaled \$1,809,286, an increase of nearly \$300,000 during the past year. The year ending June 30, 1925, had been a banner year in Oakland's postal receipts and the fact that an increase amounting to nearly \$300,000 has resulted in this past year shows that the rate of increase has been approximately 20% per month, according to these statistics.

Building permits have continued to show splendid figures and have maintained Oakland's position as one of the most rapidly growing cities in the United States. It is interesting to note that for the year 1925 the building permits were 734% over those of 1918; that the bank clearings increased 266% in the same period, and that other index figures increased accordingly.

That Oakland is holding its position as an industrial leader is indicated by the fact that thirty-eight new industries have chosen the East Bay as a location since January 1, 1926. In the first six months of 1926, and during the year 1925, 145 new industries selected this district as a location, and there are more than one hundred national industries located here.

During the past year, as previously, our automobile factories have been leaders in local production. The General Motors Company, local branch, has

made a record during the past year in the production of Chevrolet cars; the Durant plant has increased tremendously its production, and Star cars, both fours and sixes, produced in Oakland, are marketed throughout the entire West. The most recent development at the Durant factory is that of body building. Through additions made to the facilities in the local plant the Durant Company is now building a large number of the bodies for the cars produced here in their Oakland plant, and during the present year have planned additional improvements that will result in the building of all bodies, both for closed and open cars, in Oakland. This means additional payrolls for the factory with the resulting general benefit to our city.

Central National Bank Building

I wish to repeat at this time what

I have mentioned in previous messages, and that is, the debt which Oakland owes to W. C. Durant and his associates. Mr. Durant was responsible for the original selection of Oakland as the Pacific Coast Chevrolet production center; and when he organized the Durant Motor Company he was likewise responsible for the selection of our city as the site of the Western plant of the new company. Thousands of our people who are employed or who derive their livelihood from the products of these factories, are residents of Oakland primarily because of the action of W. C. Durant, his son, Cliff Durant, Norman DeVaux, vice-president and general manager of the Durant Motor Company, and their associates.

Other figures indicating Oakland's healthy position are those of retail trade. Our city again holds the position of having the largest percentage of gain over last year in retail trade, of all cities on the Pacific Coast, a position which it held at the time of my last annual report to the Council, and which it has maintained consistently during the year. In the month of May, 1926, for example, Oakland's gain in percentage in retail trade over that of 1925

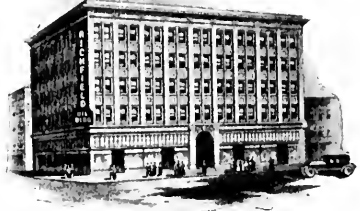

Athens Athletic Club Building

was 5.2%—the nearest competitor was Los Angeles with a gain of 4.1%, and San Francisco lost 1% during the same month.

DOWNTOWN BUILDINGS

During the past year we have seen a number of splendid new downtown buildings open their doors and take their part in the active life of the community. Among them are the magnificent eighteen-story building of the Central Bank, recently completed; the magnificent new home of the Elks which represents an investment of \$1,300,000; the opening of the \$800,000 Athens Club building; the completion and opening of the Coit Hotel at 15th and Harrison streets. There is under construction and nearing completion the handsome Latham Square office building at 16th and Telegraph Avenue which is scheduled for opening September 1; the Leamington Hotel, rapidly being finished at 19th and Franklin Streets; a striking addition to our apartment house facilities is the completion of the beautiful building constructed by Architect M. I. Diggs and a group of his business associates, adjoining the Regillus Apartments at 244 Lakeside Drive, and which has opened the first community owned apartment building in Oakland. Reaching eleven stories into the air, it is a splendid example of architecture.

Richfield Oil Building

In the amusement field, we have seen during the past year a number of new motion picture theatres open their doors for the pleasure of our people. These include the Parkway, the new Fruitvale, the Golden Gate, the Fairfax and the Granada Theatres, owned and operated by the Golden State Theatre and Realty Company; the splendid Grand-Lake Theatre, owned by the West Coast Theatres; and rapidly nearing completion are two more theatres for the West Coast and two for the Golden State Theatre interests, as well as several which are being erected by private theatrical operators who are showing their faith in Oakland's prospects by investing their money in this manner. At the present time money exceeding \$5,000,000 is invested in theatre houses in Oakland. Consequently, we should consider the amusement enterprise to be one of our leading and most prominent industries.

Another notable example of Oakland's continuing commercial development is that furnished by Montgomery Ward and Company. It is but a few years since they broke ground for their first building. Last year their business had increased to such an extent that they doubled their then existing eight-story building in East Oakland and they are now engaged in additional construction which, when completed, will again double their present facilities. This one company does a tremendous business in Oakland amounting to millions of dollars per year and provides a market for many of the articles manufactured and supplied by Oakland producers.

It is interesting also to note, that during the year just closed an average of fourteen homes were built in Oakland each working day during the fiscal year and that the total amount of building permits for homes exclusively during the same period amounted to \$14,476,872.

MUNICIPAL PROGRAM—STREET IMPROVEMENTS

Municipal affairs have kept pace with private developments. During the past year we have continued our policy of street openings and developments.

Oakland Bank Building

8th Street, 8th to 14th Avenues, at a cost of \$142,000; and in East Oakland, 89th and 92nd Avenues, costing nearly \$10,000.

A large number of our streets have been repaired or repaved in the same period, among them being the tremendous East 14th Street repaving project which cost nearly \$500,000; the repaving of Shattuck Avenue from Telegraph Avenue to the Berkeley line; paving of the Skyline Boulevard Extension; the new Golf Links road between 82nd and Jones Avenues; West 14th Street to the waterfront; Peralta Street from 7th Street to Emeryville, the City's share costing \$13,700. This latter project is practically completed and will be opened in the near future.

The plan whereby the Southern Pacific rails will be removed from Franklin Street and the Southern Pacific Company use Webster Street jointly with the Traction Company from 14th to 41st Street, and which I recommended several years ago, has now been nearly completed. New rail is now being laid in Webster Street and when this construction work is finished in the near future, current operation will commence over the new tracks and Franklin Street will be released for general traffic. The greatest advantage of this plan will be, however, the release of the present depot holdings of the Southern Pacific Company for general commercial usage and the addition of this valuable property to the taxable wealth of our city. It is reported that offers totaling more than \$2,000,000 have been made to the Southern Pacific Company for this property as soon as it is released by them.

In addition to this, street opening, widening and improvement proceedings, aggregating nearly \$1,500,000, are now under way. Proceedings have been completed towards the widening and improving of 1st Avenue and East 12th

These projects completed, or nearly so, include the opening to traffic of Jefferson Street into San Pablo Avenue; Kahn Way between San Pablo and Telegraph Avenues; the widening of 20th Street from San Pablo Avenue to Harrison Street, a project which I inaugurated three years ago and which cost \$820,000. Oakland's portion of the Bay Farm Island road has been paved and is open to traffic. Alameda County is now engaged in paying their share of the project and within a short time this beautiful new scenic drive fronting San Francisco Bay will be added to the many attractive motor routes which our city already has.

Court proceedings have been completed for the opening of West Street at a cost of \$230,000; of Castro Street into San Pablo Avenue, the land condemned cost \$180,000, actual work on which has not been started but will commence in the near future; East

Alameda County Title Insurance Co. Building

Street at a cost of \$175,000 to improve traffic conditions leading to and from East Oakland via East 12th and East 14th Streets; the proceedings for widening Franklin Street from 20th Street into Broadway have been completed in the courts and this opening, which will cost \$500,000, will soon be under way. For East Oakland, the Russett Street opening from 50th to 85th Avenues, which will cost over \$100,000, will soon be in the courts. In addition to this major project, smaller projects aggregating \$30,000 have passed the courts and will shortly begin. Included in these are: The 85th Avenue extension, and the 92nd Avenue opening and extension across the railroad tracks in Elmhurst, which will open up much additional territory and industrial development and provide the industries now located there with more convenient access to and exit from their respective locations.

Additional street widening plans, some of which have been completed and others on which work will start in the near future, will include the widening of Harrison Street from 12th to 20th Streets at a cost of \$16,000; Webster Street from 12th to 20th Streets; Telegraph Avenue from 19th Street to Claremont Avenue; 14th Street from Clay to Webster Streets; 13th Street from Webster to Market Streets; Broadway from 14th Street to College Avenue and 12th Street at the dam; at a total estimated cost of nearly \$400,000, repaving Grand Avenue to the Embarcadero, the city's share to cost \$37,000; and \$15,000 to finish the work for the opening and extension of East 10th Street.

Hotel Coit Building

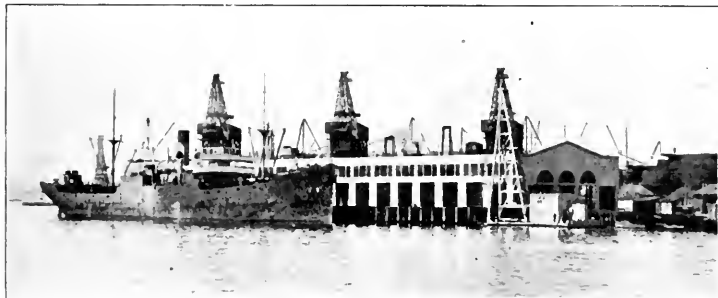

Waketfield Building

Another major street opening plan on which proceedings are now under way is that of repaving, widening and opening Hopkins Street through to Seminary Avenue. This is a most important project as it will open up an additional artery for the heavy traffic moving to and from East Oakland north of the Lake. Excelsior Avenue is also to be widened and repaved from Hopkins Street to Lakeshore Boulevard, which will cost the city \$40,000. Proceedings will soon be initiated to pave Santa Clara and Moss Avenues and thus provide an improved through and direct artery for this rapidly increasing volume of traffic.

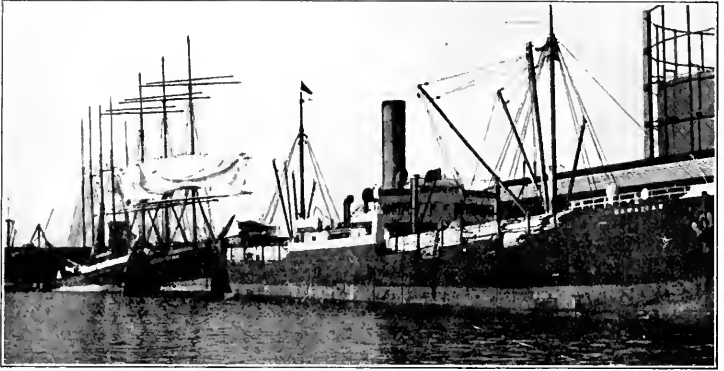

Completion of the East 8th Street improvement will cost the city \$25,000; while other improvement

projects included in the coming fiscal year are: \$40,000 for the improvement of Mountain Boulevard; \$30,000 for various sewer outlets in all parts of Oakland; \$55,000 for the construction of new corporation yard buildings; \$17,000 to complete the drainage system being installed on Lerida Avenue and which it is hoped will eliminate any further trouble in that location; and \$150,000 to complete the Elmhurst sewer outlets.

It is highly essential that work on all these street improvement projects be pushed as rapidly as possible. The bridge which is being constructed across the Carquinez Straits is scheduled to be finished and opened for traffic early in 1927. This will open up a direct and convenient artery to traffic from the great Sacramento Valley directly into our city and we must prepare as rapidly

Oakland Harbor

Oakland Harbor

as possible for the volume of traffic which will come to us over that highway.

The Council has recently appropriated money authorizing a survey for another route from Contra Costa County into Oakland. Representations have been made to the Council favoring a route via Shepard Canyon, another via Thornhill Road, and still a third, a route below the present tunnel. The results of the surveys will determine which of these is the most satisfactory and advisable road to construct.

SEWERS

The past year has seen construction practically completed on the sewer improvements authorized by the \$1,250,000 sewer bond issue and provided a long needed relief through the additional facilities thus made available for service. The rapid growth of Oakland and the large number of subdivisions which have been and are being constantly placed upon the market makes the question of adequate sewers one of prime importance and there are today many hundreds of miles of new sewers in construction in Oakland to serve these various subdivisions.

HARBOR IMPROVEMENT

In my annual message to the Council in 1924, I recommended a harbor bond issue and outlined a plan of development for our western waterfront. In November, 1925, a general election was held and the people of this city authorized the expenditure of \$9,960,000 for harbor improvement.

Gilmour Building

New Bungalow

At the time of the election, I expressed myself as opposed to certain measures included in the program submitted by the Board of Engineers, previously appointed by the Council. My opposition was particularly directed against the proposed expenditure of nearly \$4,000,000 in Brooklyn Basin. This portion of the harbor plan contemplated removal of Government Island. The Superior Court of Alameda County had pre-

viously decided that Government Island was located within the limits of Alameda and that the City of Oakland had no jurisdiction over its boundaries. More recently that decision was upheld by the higher courts of the State and final word has just been received from the Federal Government that it will not consider relinquishing the twenty-five year leases which it holds on the island and that it contemplates development of Government Island as a Federal airport. Consequently, it appears to me that there is now no possibility of carrying out the advertised project in Brooklyn Basin.

The harbor bond issue provided for only an apron wharf, a parking place for scows, on the western harbor frontage, although this frontage is the only available land possessed by the city which has not been leased out for a long term of years. Neither did the Harbor Engineers make any recommendations for the development of the "White Meat," lying between the Southern Pacific and the Western Pacific moles.

In accordance with my previous recommendations and in view of the situation that exists concerning Government Island, I again recommend most urgently that the amount of money which had been appropriated for Brooklyn

Levy Residence

Rous Bros. Building

Lake Merritt were misled by propoganda and voted for the above issue in the theory that they would be given an East Oakland harbor. This was merely political propoganda to have them support the harbor bond issue.

I have previously recommended construction of a 5000-foot solid fill mole on our western waterfront and have presented the plans for that improvement to this Council. I have also recommended construction of proper docking facilities west of Albers Mill to accommodate the Sacramento River steamers. There is a tremendous volume of river traffic, most of which now crosses to San Francisco. Were proper accommodations provided on our own waterfront for this traffic it could be landed here and save our local commission merchants the time and expense of having it brought back across the Bay after having been brought down from the river ports.

In 1910 the Key Route was granted a franchise which included for a period of fifty years the grant of a 1000-foot fairway and exclusive use of certain property adjoining the Key Route pier on which they were to erect piers, warehouses, etc., for a general freight and traffic business, and on which they would pay no taxes or tolls into the city treasury. Never has this franchise, which ties up 157 acres of land, been complied with. The Key Route

New Residence

Basin expenditure be diverted and utilized for the development of our western harbor frontage. It is a well known fact that the entire harbor frontage from Webster Street east-erly is under lease to private inter-ests, and that the leases will not ex-pire for many years. These same private interests have erected im-provements on much of this land and are collecting and keeping dock-age and tolls which rightfully should come into the city treasury, and they pay no taxes on these holdings. The people of Oakland residing east of

long ago forfeited any right which they might have to continue use of this property, and in connection with the general develop-ment of our western har-bor frontage it is my recom-mendation that this franchise be canceled and the use of this land be returned to the city.

PARK PURCHASES

A decision has just been rendered by the Appellate Court which may result very seriously on certain land purchase projects. Over my opposition, this Council voted the purchase of the MacDermott property in West Oakland on the installment plan at a price of \$90,000; the Sanborn property on Fruitvale Avenue, 2 acres, \$36,000; the Mandana Boulevard property, \$70,000; Leona Heights property, \$27,000, totaling in all \$223,000 for purchases alone on installment basis. These items do not include the amount of money which the city will be obligated to pay for maintenance of these properties and for transforming them from real estate tracts into parks. I estimate that it will cost another \$225,000 to carry out this work or a total of \$450,000, approximately, for backyard and hillside parks.

I had previously recommended that the Council purchase the five hundred acre Durant property in East Oakland at a price of \$350,000. This recommendation was rejected. The property has since been sold at a price of \$500,000 and the opportunity to purchase it for a city park has been lost forever.

The decision of the Appellate Court, to which I referred above, invalidates all procedure of installment park purchases. It is my intention to investigate the agreement under which these properties have been purchased and see whether or not the expenditure of the \$225,000, above referred to, is legal. I have been strongly opposed to the backyard parks for the purpose of helping out any real estate deals or speculations, and I consider the items above referred to to be entirely of that class.

During the past year the Park Department has completed the moving of the Zoo from its former location on the edge of the lake to its new and permanent location in Sequoia Park. New cages and accommodations have been provided and it makes an ideal place and permanent location for this feature of our parks.

RECREATION DEPARTMENT

Our Recreation Department during the past year has continued to carry out its progressive program. The Christmas Pageant in December, 1925, was

Apartment House

unusually successful. Participated in by children from nearly every school in Oakland, it indicated the interest which their families have in the work and planning of our Recreation Department. Commencing in the summer of 1925 and continuing again this year, vacation-time directors have been provided for all of the public playgrounds in the city. They provide our children with plenty of places in which to carry on healthy and properly directed play during the vacation months when there is no school; and by keeping the playgrounds properly directed, encourages the children to keep out of the streets and to come to the playgrounds where they are able to play and have their recreation in safety.

The municipal golf links has definitely become a profitable enterprise.

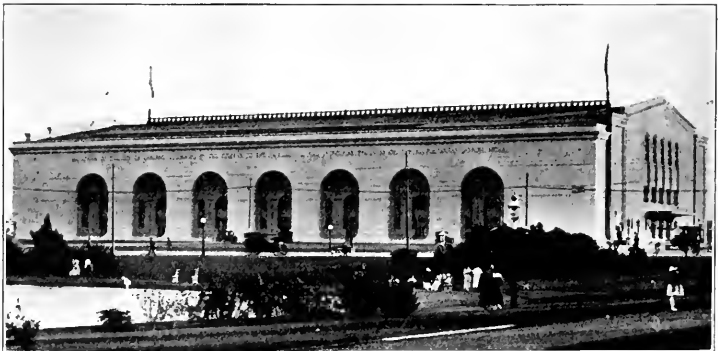

The report for the fiscal year just closed shows that the golf links' income has now reached the point where it is turning funds back into the city treasury and it will eventually pay off its cost, as well as furnishing us with a much-needed facility.

Our summer camps in Tuolumne and Plumas Counties are filled to capacity. Last year was an unusually successful one for the camps and the present summer's business indicates that more people will make use of them than ever before. Oakland is one of the few cities in the country which has established this plan for municipal mountain camps, providing our people with mountain vacations at a price which all can afford to pay. Estimates indicate that at the close of the present summer 6000 people will have taken their vacations at the Oakland municipal camps.

In past years I have recommended the filling and reclamation of 100 acres of land lying behind our municipal auditorium. That work has been completed and the land has been taken over and is being used by the Play-

Kahn's Department Store

Municipal Auditorium

ground Department, which is developing it as a central recreation center. In the budget of the Playground Department a request is being made for an additional appropriation to develop this more completely. Ultimately I believe that all this land lying to the south of our municipal auditorium will be developed as a tremendous central recreation field, with football and baseball fields, running and race tracks, and every facility for a complete athletic and recreation development, ample to provide accommodations for the Olympic games of the world.

At the same time I wish to repeat my recommendation to the Council concerning the hasty completion of the extension of First Street. The filling between Fallon Street and 5th Avenue, which I recommended five years ago, has been nearly completed and I again repeat my recommendation that this area be paved and properly surfaced to provide a traffic artery for the heavy waterfront traffic. This is especially essential now that the opening of Fallon Street between 7th and 1st has been ordered by the Council and is now before the courts.

The former Superintendent of Recreation resigned, effective July 1, and the Playground Department has appointed Mr. R. W. Robertson, for several years assistant superintendent, as a successor. Mr. Robertson will carry on the progressive policies of the Playground Department and is directing his efforts to keeping Oakland in the proper position it occupies in recreational activity. The Superintendent of Recreation is being assisted in his work by a progressive and active Board of Directors, headed by Dr. J. E. Zales, who has recently been elected President.

I wish again to call the attention of this Council to the necessity of doing something to improving the condition of the water in Lake Merritt. I have repeatedly recommended the development of a plan to bring water in from the western waterfront via high pressure pipe line to the Lake and delivering it through ornamental fountains. By the setting up of an artificial flow of water in this manner the present "settling basin" condition of the Lake could be eliminated and the water made healthy and safe so that our people could use it as a place in which to swim.

Recently a company of motion picture actors from Southern California

Lakeside Park

was engaged in making a film with Oakland and the University of California as its setting. A portion of this film included scenes on Lake Merritt and when some of these actors emerged from the water after having taken part in their scenes, they were covered with a coating of oil and filth, difficult to describe.

We have in Lake Merritt an opportunity to develop a magnificent central water recreation park. I have had estimates made as to the cost of providing clean salt water from the Bay for Lake Merritt and believe that this matter should receive the immediate and urgent consideration of the Council. With the rapid growth of our city greater demand is being made upon our recreation facilities at the Lake. More call is being made for the use of canoes and the boats, and our people are entitled to have this beautiful spot developed in such a way that they can enjoy swimming there along with the other recreation features.

CITY PLANNING

The Council last year made an appropriation of \$10,000, which has been increased to some extent, to provide for a complete re-survey of the city by employees of the City Planning Commission for the purpose of establishing a comprehensive and well constructed zoning plan throughout the entire city. The work of those employees is nearly finished. The city has been surveyed, mapped and plotted and hearings are now being called for the purpose of receiving protests and suggestions before the new zone ordinance is acted upon by the Council.

DOWNTOWN COMFORT STATIONS

I have previously recommended the construction of downtown comfort station facilities. For several years I have included in the budgets submitted to the Council recommendations for appropriations to provide these much needed facilities. Each year has seen my recommendation disregarded and the money diverted and used for some other purpose. With our increased

Oakland's Changing Downtown Skyline

growth and with the development of our downtown business and retail center the need for these facilities has increased tremendously and I again recommend that this Council consider during the coming fiscal year an appropriation of money sufficient to provide downtown comfort stations in a convenient and central location.

TRACTION COMPANY PAVING

In the early part of this year I sent a peremptory letter to the officials of the Key System Transit Company demanding action on improving the condition of the paving between their tracks on various streets in Oakland. Among the streets which I mentioned were Broadway from 14th to 22nd Streets; 13th Street from Webster to Washington Streets; East 14th Street from 50th Avenue to San Leandro, and from 1st to 13th Avenues; Grove Street from San Pablo Avenue to 40th Streets; Grand Avenue from Harrison Street to the Piedmont line, and others. I now am pleased to advise the Council that the Traction Company has completed the rebuilding and repaving of several of those streets and that work is under way on many of the others. The Broadway trackage and that on 13th Street has been rebuilt. On Grand Avenue and East 14th Street a large amount of the work has been completed and the balance is now under way. I am informed by officers of the Traction Company that work on other streets which I mentioned in my communication will be undertaken as soon as some of the present work has been completed.

The Charter charges me with the duty of seeing that the public utility companies comply with the terms of their franchises and I shall continue to keep in close touch with this important work of track rebuilding and street repair until it has been brought up to the proper condition and in a satisfactory manner.

WEST 7TH STREET CROSSING

There is at present before the city the matter of a proper solution of the grade crossing problem on West 7th Street. The State Railroad Commission has ordered a separation of grades at that point to eliminate the traffic hazard now caused by the crossing of automobiles over the electric and steam lines of the Southern Pacific Company. A most interesting situation exists in this connection. Practically all of the traffic movement east and west on West 7th Street and crossing the tracks of the Southern Pacific Company is Southern Pacific auto ferry business. Our city is now faced with a situation where our people are forced to pay from twenty-five to fifty per cent of the cost of this separation for traffic which moves entirely over the ferry lines of the Southern Pacific Company.

A proposal has been made to this Council that a subway be constructed at Goss Street, one block north of 7th Street, under the lines of the Southern Pacific. I have previously expressed by strenuous opposition to such a recommendation. It violates every principle of traffic engineering and city planning. The trend of modern traffic engineering is to eliminate, so far as possible, curves and right angle turns, and yet we have here the spectacle of the railroad engineers, those of the automobile association, and of the city, recommending an improvement which would add a number of dangerous turns and curves rather than eliminate them. Another disadvantage of the proposed Goss Street subway lies in the fact that it will divert traffic off 7th Street and will ultimately result in a demand for the widening of 8th Street at the expense of the city and of the property owners. As an alternative plan, I recommend an overhead crossing be built on 7th Street which will permit the flow of traffic on a straight line and the continued use of the one hundred foot width of 7th Street as against the 40-foot width of Goss Street and the compression of the traffic into a narrow eighteen-foot subway bore.

Competent engineers have confirmed my opinion in this matter and the only reason they can give for the recommendation of the subway is that it will abandon a large portion of West 7th Street to be taken over and used as a freight yard by the railroad company.

UNION TERMINAL STATION

Five years ago in my annual message to the Council I recommended consideration of construction of a Municipal Union Passenger Terminal to be used by all the railroads entering our city. In that same message I recommended that this terminal be constructed at a location in the area bounded by Wood or Willow Streets on the East, 18th Street on the South, 32nd Street on the North, and extending down past the present tracks of the Southern Pacific along the Western harbor front. The Western Pacific Railroad holds an old franchise for lines along Wood Street, the Santa Fe has its lines along Wood Street, which now terminates at 20th and Adeline; the Southern Pacific tracks parallel the Western harbor front. Such a terminal would be convenient of access by all railroads entering Oakland, and there is room in this location for the construction of a Union Terminal that will satisfy traffic problems for all railroads entering Oakland for many years to come.

In my former message I said as follows:

"This terminal should be constructed by the City of Oakland and operated entirely as a municipal utility. This would eliminate any possibility of discrimination against any carrier entering Oakland, and the railroad companies would be charged rental for their use of the terminal equipment in proportion to the traffic each railway has. The revenues derived from this rental would amply repay the cost of building the terminal and provide the city with a profitable source of future revenue.

"It is but a short distance from this location to the municipal property on our western harbor front and I recommend that sufficient space be reserved by the city at the foot of West 14th Street to provide for a municipal ferry slip to be constructed in connection with the terminal station. The ferry slip

A Street Scene

and improvements, like the terminal should be a municipal utility, giving equal accommodations to all lines making use of it."

I again submit this matter for the serious consideration of the Council. Removal of the 14th and Franklin Street Depot of the Southern Pacific should provide additional reason for hastening the construction of a Union Terminal in this location.

STREET LIGHTS

I wish to call the attention of the Council to the unsatisfactory condition of our city in the matter of adequate downtown street lighting. It seems to me that for the past five years we have been dilly-dallying with the question of downtown street lights. Delay based upon one reason or another has dragged out the matter until today Oakland, for its size, has, I believe, the most miserable downtown street lighting of any city in California. Residents of Oakland who have driven back and forth between here and Southern California have commented to me upon the excellence of street lights in smaller cities through which they have passed and which are but a small fraction of the size of Oakland. We recently had an application from a local theatrical house for permission to maintain a string of lights on Franklin Street, and I then made the interesting discovery that with the exception of the antiquated are lights maintained by the Southern Pacific as a part of their street railway franchise, there is not a street light on Franklin Street in the downtown business portion of that street.

Several organizations and others have been repeatedly before this Council on the matter of proper street lighting. Excuses and delays are many but we have made no material progress and our downtown streets are no better lighted today than they were ten years ago. I earnestly recommend that this matter receive the immediate attention of the Council and that before another year has passed Oakland takes its rightful place among cities having well lighted streets and not be a second to Santa Rosa, San Jose, Santa Maria, and many other smaller towns far too numerous to mention.

MUNICIPAL BUS SYSTEM

I have formerly recommended to the Council the establishment of a municipal motor bus transportation system. Some months ago petitions were received by this Council, signed by a large number of people, requesting that this matter be placed upon the ballot at the next municipal election. The Council refused to act upon these petitions and the proponents of the bus plan are now engaged in securing signatures to initiative petitions for calling a special election and giving our people an opportunity to vote on this very important matter. I am a firm believer in the advantages of municipal motor bus transportation system and I believe that the people of our city should be given an opportunity to express themselves as to whether or not they desire bonds issued for the establishing of such a system.

CHARTER AMENDMENTS

On past occasions I have recommended to the Council certain amendments to our City Charter; one of these applied to the assessment and collection of city taxes by the County Assessor and Tax Collector as permitted by State law. My recommendation was not favorably considered by the Council. The matter was recently revived by local newspapers and I again presented this recommendation to your honorable body for the third time, with the result that it was "tabled." It is my recommendation at this time that this resolution be taken off the table and given favorable consideration.

I do not consider it fair that the people of Oakland be refused the privilege of expressing themselves through the ballot as to whether or not they desire this important change in our governmental system which will result in

the elimination of duplicate functions and in a greater governmental economy. I have previously presented figures to your honorable body showing the savings which included up to June 30th, 1925, had this system been in force. The following statistics brought up to June 30, 1926, show the additional saving which could have been made in the past year:

Year	Taxes Collected	Highest Amount County Could Charge	Cost of City Assessing and Collecting
1919-20	\$ 3,735,583	\$ 18,677	\$ 56,298
1920-21	3,959,767	19,798	61,244
1921-22	3,788,772	18,943	64,887
1922-23	4,045,466	20,227	67,793
1923-24	4,279,086	21,395	77,807
1924-25	4,719,275	23,596	90,775
1925-26	5,667,727	28,338	100,512
	<u>\$29,195,676</u>	<u>\$150,974</u>	<u>\$519,316</u>

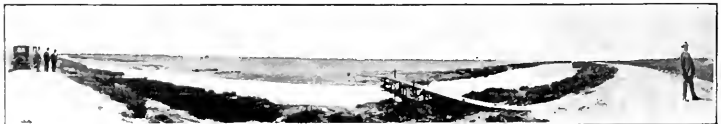

Another charter amendment which I wish to recommend to your honorable body at this time is one dealing with those of our municipal employees who are members of the National Guard or of the Organized Reserves of the U. S. Army. An old clause in the City Charter adopted in 1911 provides that no person holding any office, position, or employment under the city government carrying with it a salary of more than \$50 per month, paid out of any money of the city, shall hold such position under the city government while holding any office or position of profit under the government of this state, any other state or the United States Government.

The National Defense Act of 1920 provides that members of the National Guard and of the Organized Reserves may be called into active duty for a period of two weeks each year for the purpose of receiving training. During this two weeks' period they are to receive the pay of their rank from the United States Government. In a majority of cases the pay and allowance received from the Government are much less than the salary which is paid the employee by the city.

Due to the section of the Charter just quoted above, it is impossible for a city employee even to devote his two weeks' annual vacation time to this service without being deprived of his vacation pay. It is my recommendation that the Charter be amended at the next municipal election to permit city employees part or all of their city compensation, at the discretion of the Council, when such employees are absent from their municipal position in attendance at a military training camp. I believe that the adoption of such an amendment would remove a penalty against the patriotic attitude of those of our employees who are in the National Guard or in the Organized Reserves.

PUBLIC UTILITIES

I have recently had an interesting question concerning municipal jurisdiction over public utilities presented to my office. In accordance with the public utility act of 1915, the people of Oakland voted to surrender municipal jurisdiction over rates, charges and service, rendered locally by the public

View of 3-Mile San Francisco Bay Frontage of Stone Property

15th and San Pablo Avenue

utility companies, to the State Railroad Commission, and thus took that control out of the hands of duly elected municipal officers. I do not believe this to have been a prudent decision on the part of the city in the light of recent developments.

I have previously expressed myself as favoring the repeal of that action on the part of our people. I believe that if the matter were to be placed upon the ballot at this time the people of Oakland are so thoroughly disgusted with the decisions of the Railroad Commission so far as our local affairs are concerned that they would rescind the action taken some years ago and vote to reestablish control over local utilities in the hands of their own locally elected public officials.

We have relinquished control of our local utilities to an organization which has its headquarters in another city. The members and employees of the Railroad Commission do not have the same familiarity with local conditions as do the elected officials of the city and yet they have full control over these important matters.

I feel so strongly upon this subject and am so thoroughly convinced that the Railroad Commission has failed entirely in the purpose for which the Commission was established that I believe the entire Commission should be abolished and that legislation looking to its abolishment should be introduced at the coming session of the Legislature. In this I am positive from correspondence which I have had with other cities in California that it would have the unanimous support of other cities which have also suffered at the hands of the Railroad Commission in favor of the corporations.

One important fallacy of the Railroad Commission rulings lies, in my opinion, in their policy of permitting the utilities to receive rates from the public which will permit them to pay the expenses of their constant applications before the Commission for an increase in those same rates. The utilities are permitted by the Railroad Commission to pay salaries to their officials far in advance of those received by any public official elected by the people. The rate payers in turn are called upon through the Railroad Commission to provide the money with which to pay those salaries and in addition to pay rates which will, after all operating expenses have been paid, return 7% on the capital stock of the various utilities. Were the control over local rates of utilities to be vested in the Mayor and members of the City Council elected by the people of Oakland, we would not have, for example, the present 7 cent fare on the street cars, and we would demand and receive a much better service from the Traction Company because we would have the control of these local utilities direct in the hands of officials elected by the people of this city.

Recently a complaint was made to my office concerning an arbitrary charge assessed against a property owner by the utilities for removing certain poles in front of his property. This property owner desired to improve his property and derive a revenue therefrom by using it for an oil service station. He found entrance and exit to the property to be blocked by the poles of the utility. Upon requesting their removal, he was charged a sum of approximately \$500 for such removal. Considering the charge as unjust and arbitrary, he has appealed to me and I have requested the City Attorney to give me an opinion as to the powers of the city in this matter.

GENERAL GROWTH

At the time I presented my last annual message to the Council, I cited certain statistics showing Oakland's growth up to that time. I now take pleasure in presenting a revised set of those statistics which will show that our city is continuing its march of progress and development:

	1915	Now
Industries	573	1,598
School attendance	23,216	50,047
Number of schools.....	46	64
\$10,000,000 bond issue is building twenty-one more schools this year.		
Banks	5	49
Payrolls	\$20,000,000	\$89,000,000
Bank clearings	\$188,464,820	\$1,063,292,073
Postoffice business	\$521,846	\$1,809,280
Number of vessels arriving here.....	1,495	8,834
Merchandising cargo	\$181,795	\$1,465,000
Feet of lumber	4,443,000	250,634,000
Number of steamship lines docking here.	9	47
Theatres	6	40
Building permits	\$5,000,000	\$39,180,863
Paid off \$7,500,000 in bonds contracted for by previous administrations.		

The commercial and statistical agencies, Eastern newspapers and business interests are unanimous in their opinion that Oakland is destined to be one of the nation's leading cities. Our steady and persistent growth in the past ten years is the foundation of California—the Sacramento, the San Joaquin and the Santa Clara, all of which are contiguous to Oakland and which are the most fertile and productive agricultural areas in the entire State. Their production has been increasing by leaps and bounds and the major portion of that production finds its way to market through our city. We have every facility, climatic, commercial, harbor and others to justify that opinion, and I am confident that, impressive as our record has been in the past few years, we will continue to make new records annually as time goes on.

Very truly yours,

Mayor of the City of Oakland.

Hertz Driv-ur-self Stations

Pacific Coast Stations from San Diego to Vancouver

The "Coast" Cord

Built in California of the best of materials by expert workmen.

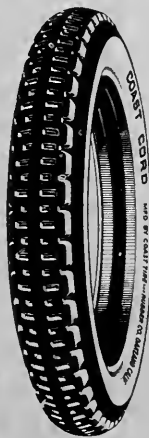

Observe the substantial non-skid tread.

Public and private tests have demonstrated the great durability of the Coast Cords and Coast Balloons.

You are invited to visit our factory to see how well Coast Tires are made. If you cannot call at the factory visit our branches and inspect our product.

The quality is equal to any on the market.

Why buy retreads or seconds when you can buy real quality with factory guaranty at these wholesale prices. Compare them and be convinced.

Achievement

The new home of the Central Banks is a monument to achievement. Long years of helpful, efficient service have prepared the way. Loyalty and confidence and faith have gone into the building of this imposing structure which towers high above the heart of Oakland.

The same efficiency and personal interest that have always characterized these banks await your command today. And in addition, we can now offer the splendid facilities of our new quarters as an incentive to do your banking here.

We shall be glad to serve you.

Alameda County Bankers

Alameda County bankers—men who have long been active in the business life of the East Bay communities and know thoroughly their financial needs—direct the policies of the Mercantile Trust Company of California in Berkeley, Oakland, Emeryville and Albany.

And at the beck and call of the officers of our Alameda County banks are the varied, exceptional banking, trust, and investment facilities offered by a modern metropolitan bank and trust company with resources of more than \$170,000,000.

OAKLAND

“When in doubt, play trumps”

How many times have you heard that trite statement? When in doubt about the location of an address; the proper spelling of a name; a correct address; in fact anything pertaining to your city or any other, the

CITY DIRECTORY

is your trump card. A few moments spent and a few pages turned, presto—the CORRECT information is yours. Use the Directory. Add to your efficiency by being sure you're right.

ON THE BUSIEST CORNER IN OAKLAND

OAKLAND'S FINEST OFFICE BUILDING

This great new structure offers every advantage to tenants. It stands in the very heart of the city. It has every modern comfort and convenience. Office suites are spacious and light. The building is known to citizens

of Oakland as the best Oakland can offer.

To be listed among the tenants of the Central Bank Building is to be included in Oakland's business "Blue Book".

SYNDICATE BUILDING

SYNDICATE BUILDING

Conveniently Located at 1440 BROADWAY

THERE'S PRESTIGE in a Syndicate Building address. Added to that is the convenience of a central location, real service and fair rates.

Recent completion of extensive refinishing and the constant vigilance of an efficient staff insures top notch condition in every office and suite of the Syndicate Building at all times. Three elevators are operated and Class A service is maintained.

SYNDICATE EXCHANGE

Private offices on the de luxe "desk space" plan

For the man who is constantly "in and out," for the man who is in Oakland for just a short time and for the "one man" business with only intermittent need of outside help, the Syndicate Exchange is the most economical, complete office service offered in Oakland. It is a suite of roomy, private offices served by one large waiting room or lobby.

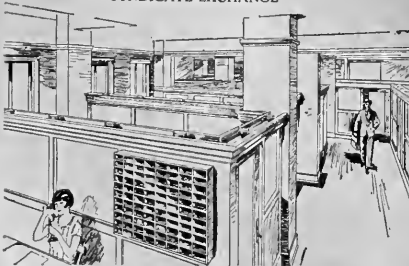

Stenographic service is conveniently available. A public stenographer is located in the lobby of the Exchange.

Telephone service is secured by ordering a phone with an extension in the usual manner. Our secretary will take messages for you over the extension when you are out. A pay station takes care of visitors and tenants waiting for service.

Mail and telephone messages are placed in boxes in the lobby of the Exchange.

Whatever your office needs may be—"desk space" or a whole floor—you will find ideal accommodations in the Syndicate Building

Your Name in the Directory—

The brief listing of your name in this directory gives an accurate account of your position in the business world. How does it compare with some of the others? Look yourself up. Consider what others will think when THEY read it. Then regard the opportunity for improving your position in the community through the help of Heald's Business College. Proper business training—the kind you get at Heald's—will put you in a position to change that listing so it will show you living in a better district, playing a part of ever-increasing importance in the business life of the city.

MODERN CONVENIENCES

Lost, sometimes amid the more spectacular conveniences, such as the auto, telephone, radio, or aircraft, yet the

CITY DIRECTORY

is probably the greatest convenience of this or any other age. Ponder for a few moments, on the service rendered by the city catalog. It would not be stretching matters to say that it can accurately answer a million questions about the municipality it represents. Familiarize yourself with this truly wonderful book. Learn how to use it to the greatest advantage. Study the index and miscellaneous information section for a few moments. The gold mine of local facts and information will surprise you. You will learn things about your own city that you never knew before.

Write for booklet, "The Directory—A Business Asset."

Homeseekers' and Investors' Opportunities

SMITH RESERVE

The Princely Estate of F. M. "Borax" Smith

Selected years ago by F. M. "Borax" Smith as a private estate when he owned thousands of acres of the finest residential property in the East Bay, Smith Reserve was set apart for elaborate development. Now YOU can feast your soul on the beautiful surroundings in which "Borax" Smith reveled. For a homesite or an investment, you cannot beat it. You can spread your purchase over so many years that it will never be a burden to you at any time. *The essential thing is to ACT NOW!*

MONTCLAIR

Business Center

A business district surrounded by 2500 acres of residential property is offered to you in Montclair Business Center. The histories of other local townsites promise big returns to investors here.

Highlands

First investors in Montclair today enjoy an average increase of more than 200% in the value of their property. Equal profit possibilities are offered to you in the sale of the property adjoining — Montclair Highlands.

Joaquin Miller Acres

In this spot the famous poet loved so well you will find an ideal location for a big home. Quarter acre lots can be purchased on easy terms which make them wonderful investments.

Merriewood

You can pick out a pine covered lot in Merriewood and have a comfortable house built on it for \$2450. On the sloping lots you get an unfinished basement without extra charge. For view, climate and value, come to Merriewood.

“When in doubt, play trumps”

How many times have you heard that trite statement? When in doubt about the location of an address; the proper spelling of a name; a correct address; in fact anything pertaining to your city or any other, the

CITY DIRECTORY

is your trump card. A few moments spent and a few pages turned, presto—the CORRECT information is yours. Use the Directory. Add to your efficiency by being sure you're right.

R. L. POLK & COMPANY

DETROIT, MICH.

Polk Directory Building

431-35 Howard St.

How to Make Application for Water Service

When you move into a new house—whether owned by you or rented—the first requirement necessary is Water Service.

It is no trouble to get this service. You may come to the office and personally sign for meter connection—you may write your request for water—or if in the confusion of moving, it is not convenient to write or call, a telephone message will bring one of our service men to you at any time and place desired.

It is our desire to make it easy and convenient for you to get water service. Our Order Department is instructed to comply promptly with every reasonable request.

If you are a new comer to this community and have not previously paid water bills for a year and do not own your own home, you will be asked to make a deposit of \$2.50, which will be returned to you after one year with interest at 6%. If, however, you are a property owner, or have previously been prompt in paying water bills for a period of one year, no deposit will be asked.

The Water Company is anxious to serve you in every possible way, and the development of this broad policy of handling orders is part of the service to you.

Main Building, Polytechnic College of Engineering
 Thirteenth and Madison Streets, Oakland, Calif.
Chartered to Grant Degrees in 1902

Practical Engineering

**Electrical, Mechanical, Mining, Civil and
 Architectural Engineering Courses Complete**

Auto Mechanics and Special Machine Shop Courses.
Mechanical, Electrical and Architectural Drawing.

SPECIAL SURVEYING AND BUILDING ESTIMATING COURSES

This college concentrates upon the subjects required in engineering practice and omits the non-essential subjects, thus saving the student about one-half the time required in a four-year college course.

Small classes, individual instruction, close personal contact with instructors and intensive training give students of this college special advantages in their engineering courses.

Degrees Granted to all who complete full courses.

NEW ELECTRICAL, HYDRAULIC AND STEAM LABORATORIES
EXTENSIVE SHOPS—FIELD INSTRUMENTS—MODERN EQUIPMENT

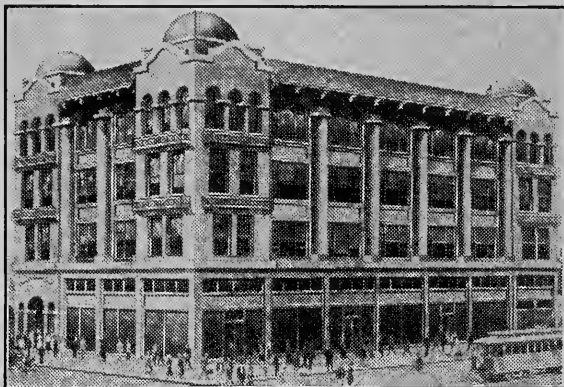

No formal examinations as entrance requirements—an opportunity for those who must rise by their own industry. Faculty of experienced men of sound training, character and experience.

This college offers a chance to the young man who cannot spend four years in university before "getting on the pay roll." It means a saving of time and money and many are taking advantage of the splendid facilities offered here.

W. E. GIBSON, President

H. C. INGRAM, Vice-President

College in session the entire year and students admitted at any time. Free Catalogue.

POLYTECHNIC BUSINESS COLLEGE
Thirteenth and Madison Sts., Oakland

A PRIVATE SCHOOL FOR PRIVATE SECRETARIES

Offers the most complete and practical training in all secretarial, business and efficiency courses ever given in the west. The Polytechnic Business College appeals especially to those who want the best and who appreciate superior facilities, including expert teaching power, pleasant surroundings, a spirit of work and enthusiasm, courteous treatment, dignified discipline and results which make for success.

GIRLS, YOUNG LADIES, WOMEN

Your opportunity is here now as never before. No argument is necessary to convince you. It only remains for you to qualify—Salaries for Beginners \$65.00 to \$100 per month. Get started now. This college is in session the year round.

THE BUSINESS WORLD WANTS YOU

Thousands of Stenographers, Private Secretaries, Clerks—Bookkeepers—and Office Assistants are needed in every department of Business and Government service.

NOTE:—Business men who are in need of stenographers and private secretaries are requested to inform us a few days in advance in order that we may make recommendations adapted to the requirements.

Address Polytechnic Business College

13th and Madison Sts., Oakland, Cal.

The only Business College in California that owns and occupies its own buildings, representing an investment of \$150,000.

Maintains a College Faculty whose standing and teaching experience are a guarantee to genuine service.

Q Dr. Johnson, of dictionary fame, said that a man should keep his friendship in constant repair. Paraphrasing the learned doctor, every concern should keep its list of customers in constant repair.

Q New customers must be obtained to replace those who discontinue because of reasons beyond control. To assist clients in getting new customers is the POLKWAY Mail-List Service. Ask for details.

Dr. Johnson, of dictionary fame, said that a man should keep his friendship in constant repair. Paraphrasing the learned doctor, every concern should keep its list of customers in constant repair.

R. L. POLK & CO., Directory Publishers

New customers must be obtained to replace those who discontinue because of reasons beyond control. To assist clients in getting new customers is the POLKWAY Mail-List Service. Ask for details.

Q Dr. Johnson, of dictionary fame, said that a man should keep his friendship in constant repair. Paraphrasing the learned doctor, every concern should keep its list of customers in constant repair.

Q New customers must be obtained to replace those who discontinue because of reasons beyond control. To assist clients in getting new customers is the POLKWAY Mail-List Service. Ask for details.

Dr. Johnson, of dictionary fame, said that a man should keep his friendship in constant repair. Paraphrasing the learned doctor, every concern should keep its list of enemies in constant repair.

New customers must be obtained to replace those who discontinue because of reasons beyond control. To assist clients in getting new customers is the POLKWAY Mail-List Service. Ask for details.
